What is a school based mentor?

A school based mentor is simply a high school student or an adult from the community who commits to a full school year as a mentor for a younger student.

High school students have a lot to offer as volunteers: energy, enthusiasm, creativity, and so much more.

Younger students look up to and admire high school students, and relate easily to mentors who are also still in school. Especially important: their self-esteem is boosted by having a special friend.
